

Who is this Master dedicated to?

**Orazio Campione**, (1948 -2003), had become Full Professor at the University of Bologna in 1998, where he had covered all his didactic, scientific and assistance training producing more than 500 publications, distinguishing himself particularly in the field of emergency surgery. In a letter signed "those who worked with you" spread on the day of his death we read: "A career full of successes and satisfactions, but too short. You were a man who did not need to wear a jacket and tie, your work uniform was enough for you. At times hard, ready to get angry if even the slightest burr or carelessness could affect the quality of care or assistance to the patient. A teacher. Strict and demanding, but that has never left us alone in the difficult times ».

**Giorgio Gambale**, (1955 - 2015), anesthesiologist-resuscitator at the Ospedale Maggiore of Bologna, he has dealt with traumatology and organization of the trauma systems and was among the protagonists of the launch, the first in Italy, of helicopter rescue. Later, at USL Forlì he contributed to the coordination of surgical block operations, developing a computerized system for the safety and efficiency of the operating pathways that received awards at European level. Director of Anesthesia and Intensive Care at the Bufalini Hospital in Cesena, he led the Emergency Department of the same hospital. His professional and human experience, re-read with the lens of the disease, is told in "The medicine according to Captain Zantax", published in April 2015.

The Master is organized by Alma Mater Studiorum, University di Bologna (School of Medicine and Surgery, Department of Medical and Surgical Sciences) in collaboration with AUSL Romagna and is sponsored by WSES, World Society of Emergency Surgery.

The managing body is Servizi Integrati d'Area Ser.In.Ar. Forlì-Cesena S.C.p.A.

II Level Master

Alma Mater Studiorum, Università di Bologna

School of Medicine and Surgery  
Department of Medical and Surgical  
Sciences (DIMEC)

A.Y. 2019/2020

## ACUTE CARE SURGERY AND TRAUMA (MiACS&T)

Orazio Campione and  
Giorgio Gambale

The Call for application will be available at  
<https://www.unibo.it/it/didattica/master/2019-2020#!>

The Course assigns 60 ECTS

**Azienda Unità Sanitaria Locale  
della Romagna**

## MASTER OBJECTIVES

The MiACS&T "Orazio Campione and Giorgio Gambale" is a training proposal aimed at declining Acute Care Surgery at the Italian and European level, providing theoretical and practical knowledge as well as autonomous organizational capacity related to all the three components of ACS itself: non-traumatic urgency, treatment of trauma and management of the critically ill.

Therefore it aims to train professionals with clinical-organizational skills that deal with traumatic and non-traumatic emergencies.

## TARGET AUDIENCE

The master is addressed to graduates in Medicine and Surgery and especially at specialists in General Surgery, Anaesthesiology and Reanimation and in Emergency Medicine and First Aid who intend to occupy directive positions from a clinical and organizational point of view, in hospitals with a strong vocation to the treatment of the urgent, traumatic and non-traumatic, surgical patient.

## DURATION AND ECTS

The course lasts one year, from November 2019 to October 2020. The programme includes 150 hours of classroom teaching for 20 days of lessons organized in groups of 2/3 days (from November to April), some workshops and an internship of 80 days. The final test consists of the elaboration of a term paper. At the end of the course the Master provides for the achievement of 60 ECTS.

*The MiACS&T is a training proposal aimed at declining Acute Care Surgery at the Italian and European level, providing theoretical and practical knowledge as well as organizational cues related to all the three components of ACS.*

## SCIENTIFIC COUNCIL

**Rita Maria Melotti**, Director, Alma Mater Studiorum, University of Bologna;  
**Vanni Agnoletti**, AUSL Romagna;  
**Luca Ansaloni**, AUSL Romagna;  
**Fausto Catena**, World Society of Emergency Surgery;  
**Federico Coccolini**, AUSL Romagna;  
**Giorgio Ercolani**, Alma Mater Studiorum, University of Bologna;  
**Emiliano Gamberini**, AUSL Romagna;  
**Luciano Margara**, Alma Mater Studiorum, University of Bologna;  
**Emanuele Padovani**, Alma Mater Studiorum, University of Bologna;  
**Gilberto Poggioli**, Alma Mater Studiorum, University of Bologna;  
**Vito Marco Ranieri**, Alma Mater Studiorum, University of Bologna;  
**Alessandro Ricci**, Alma Mater Studiorum, University of Bologna;  
**Massimo Sartelli**, World Society of Emergency Surgery;  
**Pierluigi Viale**, Alma Mater Studiorum, University of Bologna.

## PROGRAMME

The programme is subdivided into four modules:

**MODULE 1 – THE TRAUMA**  
**MODULE 2 - DIAGNOSTICS AND TREATMENT OF THE NON-TRAUMATIC SURGICAL PATHOLOGY**  
**MODULE 3 - THE CRITICAL PATIENT**  
**MODULE 4 – THE ORGANIZATION IN THE ACS&T**

## LOCATION

The Master course takes place during the week in Cesena, in the M. Bufalini hospital or in the Ser.In.Ar's dedicated rooms. The internship takes place at the M.Bufalini hospital.

## ACCOMODATION

Interested parties can contact Ser.In.Ar for hospitality orientation services; mail [aseveri@criad.unibo.it](mailto:aseveri@criad.unibo.it)

## ENROLLMENT

For information, please contact the Didactic Office ([master.miacset@unibo.it](mailto:master.miacset@unibo.it) ; 338 6649881).

The call for application and all the necessary information will be available online at <https://www.unibo.it/it/didattica/master/2019-2020#!>

- **Registration fee: € 4,500.00**
- **Maximum number of participants: 8**
