

# Decision-Making Survey –First reminder

Dear colleagues,

We hope that this message finds you all well and that you have been enjoying a lovely Christmas break. We hope that the upcoming 2022 will be a fantastic year for all of you and our amazing community.

This is the first reminder regarding our ongoing Decision-Making Survey, which was launched on November, 29<sup>th</sup>, 2021 and which can be found at the following address.

<https://forms.gle/WGzfnQ7GVPgFkQcKA>

As members of the WSES community, we ask for your help to address the challenges and new trends of our profession, regarding the way decision making is employed with patients and with the aid of new technologies. As we wish that the highest possible number of our members will give their valuable opinion on these emerging topics, we kindly remind you to spend some time to fill in the questionnaire.

As partial compensation for your precious time, we want to recall the opportunity to join the study group, which will participate in the scientific papers analyzing the survey's results.

Please ignore this communication if you have already participated in the survey.

As always, we do thank you for your cooperation and support, and we wish you again a great start to 2022.

Best wishes,

The Team Dynamics II steering committee
