

Welcome to the 39th Emergency Abdominal Surgery Course.

This course builds on previous EASC curriculum and brings together a dynamic international and national faculty who are at frontline of Emergency Surgery.

EASC focuses solely on the acute abdomen, in a multidisciplinary shared learning approach. It will bring you a level of discussion you have not heard before and enhance your ability on-duty as surgeon in training. This course is about decision making in patients with common emergencies. The course is endorsed by many societies and is the EGS course for the World Society of Emergency Surgery www.wses.org.uk

Course Goals

- Natural history of the acute abdomen
 - Key management strategies
 - Key mistakes to avoid
 - Optimum surgical approach
 - Dealing with complications

Who should attend ?

If you deal with acute abdominal pain patients, then this course is a must for you.

You will receive a bibliography of the current literature, lunch and refreshments during the day
